

Innovation and Partnerships in Mountain Areas

KINLOCHLEVEN – THE ICE FACTOR

• Kinlochleven- At the Edge of Europe

• Partnerships at the heart of Europe

Scale 1: 19,500,000
Lambert Conformal Conic Projection,
standard parallels 40°N and 56°N
300 Kilometers

Dam construction

1994

- Alcan announce closure by 2000

- Kinlochleven Working Group

Partnership

- Alcan

- Highlands and Islands Enterprise/Lochaber Enterprise

- Highland Council

- Community

- Europe

Largest decontamination project in the Highlands to date

•Euros – 1.6m

The background image shows the interior of a large, industrial building under construction or renovation. It features a series of thick, grey concrete pillars supporting a heavy concrete ceiling structure. The floor is a light-colored, possibly concrete or stone, surface. The lighting is somewhat dim, with light coming from the left side, creating shadows and highlighting the textures of the concrete.

•October 2002

•Demolitions and fitting out costs

•Euros – 3.3m

•Tenders out

•October 11 2002

•Ice Factory Complete July
2003

EU and LEADER Projects

- Project Animateur (ERDF)
- Community Centre (Leader)
- Research (Leader)
- Inward investment (Leader)
- Tourism Upgrades (HIE Standards)
- Marketing

A scenic view of a valley with mountains in the background and a large industrial or community building complex in the foreground. The buildings are multi-story and appear to be made of brick or stone. The landscape is hilly and covered in green vegetation. The sky is overcast with grey clouds.

- Phase 111

- 2003-2006

- Renewable energy

- Partnerships with Local Business and Community

- New Community School

- Partnership with Highland Council
