- **WP2 - Transnational project management**
- **WP3 - Project management**
- **WP4 - Information and publicity activities**
- **WP5 - Organic meat production in the transnational Alpine areas**
- **WP6 - Organic dairy production in the transnational Alpine areas**
- **WP7 - Local agricultural production in the transnational Alpine areas**
- **WP8 - Transnational network of the Alpine didactic farms**
- **WP9 - Transnational network of the Alpine social farms**

## **Project strong points**

**A network among territories :**

**sharing of experiences and knowledge  
between Alpine areas and local bodies**

**Strong interactions:**

- **synergy in activity strengthening,**
  - **synergy among partners,**
  - **synergy among territories**

Interreg III B

NEPROVALTER project: a model for the valorisation of the agriculture of the alpine area. *Tarvisio, 1-2 December 2005*

## NEPROVALTER PROJECT

### **Methods of work** **Brief description of project strategy**

Settore Agricoltura Aziende Sperimentali e Dimostrative della Provincia di Pordenone – Regione Autonome Friuli Venezia Giulia (ITALIA)

## Who is involved in the project:

Institutions acting at regional territorial level or country level (partners)

Farmer  
associations

Experts

Trade farmer  
unions

Research and  
survey Institutes

Universities

Local  
councils

Producer  
associations

## What is the study approach:

At transnational level

At regional level

## How are the activities developed:

The results have been obtained through specific activities carried out considering the needs arising during the implementation of project

This required a remarkable effort by each partner and collaborators

## Nerpovalter Project core:

The following presentation have a  
common goal

Give a general  
overview on the  
results
