On this page you must select the educational institution and the school where you wish to register your child.

When it is possible to locate it, the screen shows the school of reference for Kindergarten, Primary school and Junior High School. Of course you can choose another school. To see the entire list of schools in the Aosta Valley just select the school level and in the 'Establishment' field the first entry in the list '... '.

If you choose a school other than the one of reference, you must fill in the mandatory field 'motivation' explaining in brief the reasons for your choice.

### Choice of kindergarten or primary school :

for children / pupils who have to register for the kindergarten and primary school, a control on the date of birth will detect the corresponding educational levels.

An additional control will detect the school of reference based on a territorial criterion.

If the school of reference is not shown, this does not mean that it is not provided; it means that the system has not been able to detect it. It is the responsibility of the parent / guardian in charge of the registration, to know that information. It is possible, however, to choose a school other than the one of reference by selecting the institution and the school to which you wish to register your child.

Warning: registrations to kindergarten and primary school require data concerning attendance of nursery school. The request of such data has a statistical relevance only, as it is for INVALSI. In any case, if this information is not available, select Not Available.

**The pupil attended nursery school (data to be used only for invalsi statistical surveys)\***  Yes  No  Not available

### **Choice of Junior High School**

for pupils who must enroll at Junior High School, continuity is taken into account with respect to the institution attended at primary school level, which will define the school of reference .

If the school of reference is not shown, this does not mean that it is not provided; it means that the system has not been able to detect it . It is the responsibility of the parent / guardian in charge of the registration, to know that information. It is possible, however, to choose a school other than the one of reference by selecting the institution and the school to which you wish to register your child.

### **Choice of High School:**

for students who must enroll at high school level it is necessary to select the first choice school and the second choice school . You also need to select the course in which you are interested. Select - in sequence- grade of school, institution, school, and, finally, course .

### Choosing the Teaching of the Catholic religion

The text in this page is the following :

“The Italian Republic, recognizing the value of the religious culture and bearing in mind that the principles of Catholicism are part of the historical heritage of the Italian people, will continue to ensure, in the framework of the purposes of the school, the teaching of the Catholic religion in public schools at all levels (except Universities).

Respecting the freedom of conscience and the responsibility of parents in education, everyone is granted the right to choose whether or not to follow that teaching. When enrolling, students or their parents exercise this right, at the request of the school, without their choice giving rise to any form of discrimination. Law 121 of 25 March 1985 Art. 9.2

Choosing the teaching of the Catholic religion \*  
(In accordance with Art. 9.2. Of Law 121 1985)

Yes  No

The choice made at registration is effective for the entire school year to which it relates and for each subsequent year of the course, whenever office enrolment applies, including comprehensive schools, notwithstanding the possibility, on request by families or students over 18, within the terms of registration for the following year, to choose, each year, whether or not to follow the teaching of the Catholic religion.

If you choose not to follow the teaching of the Catholic religion you need to perfect your application form at the school before the beginning of the new school year.

In the case of separated or divorced parents, the compiler states that both parents agree on the choice (Art 155 of the Civil Code amended by Law 54 of February 8, 2006).”
