

# NATURA 2000 - STANDARD DATA FORM

For Special Protection Areas (SPA),  
Proposed Sites for Community Importance (pSCI),  
Sites of Community Importance (SCI) and  
for Special Areas of Conservation (SAC)

SITE IT1202000  
SITENAME Parco naturale Mont Avic

## TABLE OF CONTENTS

- [1. SITE IDENTIFICATION](#)
- [2. SITE LOCATION](#)
- [3. ECOLOGICAL INFORMATION](#)
- [4. SITE DESCRIPTION](#)

## 1. SITE IDENTIFICATION

|                      |                                   |                             |
|----------------------|-----------------------------------|-----------------------------|
| <b>1.1 Type</b><br>B | <b>1.2 Site code</b><br>IT1202000 | <a href="#">Back to top</a> |
|----------------------|-----------------------------------|-----------------------------|

### 1.3 Site name

Parco naturale Mont Avic

|  |                                   |
|--|-----------------------------------|
| <b>1.4 First Compilation date</b><br>2001-07 | <b>1.5 Update date</b><br>2019-12 |
|--|-----------------------------------|

### 1.6 Respondent:

**Name/Organisation:** Regione Valle d'Aosta Ass.to Agricoltura e risorse naturali Dip.to Risorse Naturali Serv. Gestione Risorse naturali  
**Address:** Località Amerique 127/a - 1120 Quart Aosta  
**Email:**

### 1.7 Site indication and designation / classification dates

|   |  |
|---|--|
| <b>Date site classified as SPA:</b>                 | 0000-00                                |
| <b>National legal reference of SPA designation</b>  | No data                                |
| <b>Date site proposed as SCI:</b>                   | 1995-09                                |
| <b>Date site confirmed as SCI:</b>                  | No data                                |
| <b>Date site designated as SAC:</b>                 | 2013-02                                |
| <b>National legal reference of SAC designation:</b> | DM 07/02/2013 - G.U. 49 del 27-02-2013 |

## 2. SITE LOCATION

### 2.1 Site-centre location [decimal degrees]:

[Back to top](#)

**Longitude** 7.571111      **Latitude** 45.646111

**2.2 Area [ha]:** 5750.0      **2.3 Marine area [%]:** 0.0

### 2.4 Sitelength [km]:

0.0

### 2.5 Administrative region code and name

|                          |                    |
|--------------------------|--------------------|
| <b>NUTS level 2 code</b> | <b>Region Name</b> |
|                          |                    |

## 2.6 Biogeographical Region(s)

Alpine (100.0  
%)

## 3. ECOLOGICAL INFORMATION

### 3.1 Habitat types present on the site and assessment for them

| 9110                  |    |    | 45.41      |               | M            | B                | C                | A            | A      |
| 91D0                  |    |    | 1.62       |               | M            | A                | C                | A            | A      |
| 9420                  |    |    | 65.43      |               | M            | C                | C                | B            | B      |
| 9430                  |    |    | 699.96     |               | M            | A                | C                | A            | A      |

- **PF:** for the habitat types that can have a non-priority as well as a priority form (6210, 7130, 9430) enter "X" in the column PF to indicate the priority form.
- **NP:** in case that a habitat type no longer exists in the site enter: x (optional)
- **Cover:** decimal values can be entered
- **Caves:** for habitat types 8310, 8330 (caves) enter the number of caves if estimated surface is not available.
- **Data quality:** G = 'Good' (e.g. based on surveys); M = 'Moderate' (e.g. based on partial data with some extrapolation); P = 'Poor' (e.g. rough estimation)

### 3.2 Species referred to in Article 4 of Directive 2009/147/EC and listed in Annex II of Directive 92/43/EEC and site evaluation for them

| Species |      |  |   |    | Population in the site |      |     |      |      |          | Site assessment |       |      |      |
|---------|------|--|---|----|------------------------|------|-----|------|------|----------|-----------------|-------|------|------|

- **Group:** A = Amphibians, B = Birds, F = Fish, I = Invertebrates, M = Mammals, P = Plants, R = Reptiles
- **S:** in case that the data on species are sensitive and therefore have to be blocked for any public access enter: yes
- **NP:** in case that a species is no longer present in the site enter: x (optional)
- **Type:** p = permanent, r = reproducing, c = concentration, w = wintering (for plant and non-migratory species use permanent)
- **Unit:** i = individuals, p = pairs or other units according to the Standard list of population units and codes in accordance with Article 12 and 17 reporting (see [reference portal](#))
- **Abundance categories (Cat.):** C = common, R = rare, V = very rare, P = present - to fill if data are deficient (DD) or in addition to population size information
- **Data quality:** G = 'Good' (e.g. based on surveys); M = 'Moderate' (e.g. based on partial data with some extrapolation); P = 'Poor' (e.g. rough estimation); VP = 'Very poor' (use this category only, if not even a rough estimation of the population size can be made, in this case the fields for population size can remain empty, but the field "Abundance categories" has to be filled in)

### 3.3 Other important species of flora and fauna (optional)

sostituisce quasi completamente le foreste normalmente diffuse in questo settore delle Alpi. Al centro del vallone è presente un bosco da seme di Pino uncinato. Nella zona ampliata, dal punto di vista faunistico si evidenzia una consistente presenza di ungulati di montagna (stambecchi e camosci). Di particolare valore storico e scientifico risulta il nucleo di stambecchi della Tersiva, caratterizzato da particolari aspetti morfologici e costituente un ceppo isolato rispetto al nucleo del Parco Nazionale del Gran Paradiso. Dal punto di vista botanico risulta essere uno dei siti più interessanti non solo della regione ma dell'intera catena alpina, vista la grande varietà floristica, le specie rare e gli endemismi.
